PROFILE

Third-year Bachelor's student in Internet & Multimedia at IFRI (University of Abomey-Calavi, Benin). I design and build web products around real constraints on the ground in Benin: slow connections, expensive mobile data, and users who do not always read French. I mostly work on the backend with Laravel, and on interfaces with React and Figma.

EXPERIENCE

Backend Developer Intern

June — Sept. 2026

Brillio / DigiMama · Remote internship

EdTech platform for Beninese market women: training in local languages (Fon, Adja, Yorùbá) through a mobile app. Team of 4 developers, with pull request reviews.

- User settings API built for slow connections: offline mode, download limit in MB, language, notifications
- End-to-end test of the Community journey: join, post, get reported
- 11 tests for the moderation back-office: permissions, traceability, deleted content
- Fixed a blocking migration tied to Fon as the default language

`Laravel 12` `Pest` `MySQL` `Sanctum` `Filament`

Community Manager & Photographer Intern

June — Sept. 2026

MISP — Ministry of the Interior and Public Security · Cotonou

Supported the digital communication of the ministry's Communication Focal Point with my supervisor: visual content for the ministry's Facebook page and photo coverage of official events.

`Community management` `Photography` `Canva` `Facebook`

FEATURED PROJECT

CAVI-Alibori — spoken farming advice

IndabaX Benin 2026 hackathon · 72 h

The entire Laravel backend and bulletin processing · team of 4

Weather bulletins are written in French, while farmers in Alibori mostly speak Bariba, Fulfulde or Dendi. The prototype turns a bulletin into an audio farming instruction, playable on a simulated voice server.

- Pipeline: bulletin › extraction (embeddings, automatic regex fallback) › rule › audio message assembled with FFmpeg
- Key decision: AI structures the bulletin, but a traceable rules table picks the instruction
- Filament back-office for the rules; 3 PHPUnit test suites (rules engine, extraction, missing audio segment)
- Known limit: placeholder audio segments; recordings by a Bariba speaker are still needed

Code: github.com/chanis-hg/cavi-alibori

`Laravel` `Filament` `FFmpeg` `Python`

OTHER PROJECTS

CV Generator

Personal project

In-browser resume builder: 4-step form, live preview, 4 themes, A4 PDF export, in French or English.

cvgen-hg.netlify.app Code on GitHub

`React` `Vite` `html2pdf.js`

Africa Pulse

Personal project

Dashboard covering 15 African countries: regional filters, GDP, demographics, Internet access and a country view.

africa-pulse.netlify.app Code on GitHub

`React` `Recharts` `Vite`

FarmFresh Benin — UX/UI prototype

School project

Mobile app connecting farmers directly with buyers: catalogue, product page with price per kilo in CFA francs, contact the farmer, cart.

View the Figma prototype

`Figma` `UX/UI` `Mobile first`

KAUD — logo

Client

Logo design for a local business, expressing its expertise and the quality of its work.

`Visual identity` `Canva`

SKILLS

BACKEND	Laravel, PHP, REST APIs, Sanctum, Filament, MySQL / SQL
TESTING	Pest, PHPUnit
FRONTEND	HTML, CSS, JavaScript, React, Vite
DESIGN	Figma, UX/UI, Canva, photography
TOOLS	Git, GitHub, Postman, FFmpeg
FAMILIAR WITH	Python, Java, C#, C

EDUCATION

Bachelor's degree, year 3 — Internet & Multimedia

2024 – present

IFRI — University of Abomey-Calavi (UAC), Benin

Web development, design and ergonomics, audiovisual production, databases, algorithms.

Baccalaureate, Series D (sciences)

2024

Collège Espérance 2000, Benin

CERTIFICATES AND COURSES

Sololearn — course completion certificates

Python Developer (2024) · SQL Fundamentals (2024) · Java (2025) · C# (2025) · C (2025)

LinkedIn Learning — completed courses

React Essential Training · JavaScript Essential Training · L'essentiel de Laravel and L'essentiel de PHP et MySQL (in French) · Figma for UX Design · Figma: From Design to CSS Implementation · HTML and CSS Essential Training

LANGUAGES

French, Fon and Goun: native. English: beginner.

INTERESTS

Choir director for a choir of more than 50 members. Singing and piano, reading, video games and strategy games.
